

Enclave Airlock Instructions

If you paste a file into the O: drive on the Enclave a script runs every five minutes that moves any file in that folder to the [\\cp-svm-file\Data\CMMC out](#). This is how you move files out of the Enclave.

To move files into the Enclave, paste them into [\\cp-svm-file\Data\CMMC IN](#). The script runs every five minutes and your files will appear in the I: drive inside the Enclave.
